

# GENOMIC MEDICINE IN 2015

## BC CLINICAL GENOMICS NETWORK ANNUAL CONFERENCE

27<sup>th</sup> April 2011 - 8:30 am - 4:30 pm

Are you interested in how genomics will change medical practice in the near future?

East Meeting Rooms 1-3  
Vancouver Convention Center  
(Pan Pacific Hotel)  
1055 Canada Place

### REGISTER AT [WWW.BCCGN.CA](http://WWW.BCCGN.CA)

#### Registration and Coffee

Opening Remarks; Michael Hayden MD, PhD

Keynote; Tamara Taggart, CTV News Anchor, mother of a child with Down Syndrome.

Advances in Human Genomics - What You Need to Know; Jan Friedman MD, PhD

#### Coffee

Hype or Hope: Pharmacogenetics to Improve the Safe Use of Drugs; Bruce Carleton MD

Genomics in the Digital Era: A Tool Towards Treatment; Clara van Karnebeek MD, PhD and Sylvia Stockler MD, PhD

Healthcare Unwired: Wireless Health Unlocks the Promise of Personalized Medicine; Shauna Turner, MBA

Maintenance of Certification  
Section 1 and Mainpro M1  
6.0 credits

#### Lunch

Introduction to the afternoon and Debate; Jan Friedman MD, PhD

Debate Resolution: Clinicians should determine the nature and extent of whole genome testing results conveyed to patients; Sylvie Langlois MD and Michael Burgess PhD

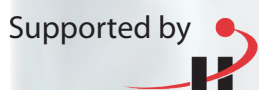

Genetic and Genomic Testing for Cancer Diagnosis and Therapy; Aly Karsan MD

#### Coffee

Personalized Medicine: Value for Money?; Carlo Marra PhD

Genomic Medicine and the Clinic: Ethical implications; Barb McGillivray MD

BC Clinical Genomics Network is supported by MSFHR to educate clinicians & provide access to genomic technologies & services, such as study design & data analysis.

Supported by  
Michael Smith Foundation for  
Health Research
