

**DELTA HOSPITAL
EDUCATION/CONFERENCE ROOM
Friday November 25th, 2011
12:00 - 1:00 p.m.**

Are you curious about how genomics is
changing medical practice?

Then come to:

SOLVING CLINICAL PROBLEMS WITH GENOMIC TECHNOLOGIES

LEARNING OBJECTIVES

- To learn about genomics and its importance in medicine
- To understand some of the genomic technologies available for clinical application
- To appreciate medical problems that can be addressed by these technologies

Speaker

DR. TRACY TUCKER

CCMG Molecular Genetics Fellow
Molecular Genetics Laboratory
Dept of Pathology & Lab Medicine
Children's & Women's Health Centre of BC

There will be a 15 minute interactive learning period immediately following the presentation.

This event is a self-approved group learning activity (Section 1) as defined by the maintenance of Certification Program of the Royal College of Physicians and Surgeons, Canada.
